**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 23 October 2008.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

1. This action is in response to applicant's RCE received on October 23<sup>rd</sup>, 2008.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Eriksson (5,516,025).

Eriksson discloses the same invention including a base part and a stapling unit, a magazine 10, and a driver 1. The base part has a lower part 16 and an upper part 12. The lower part can be moved toward and away from the upper part (see Figs. 3-8). The lower part 16 is a first elastic element which urges the parts away from each other in an initial position. The upper part has a surface for the work piece to be stapled as shown in the figures. Upper part bending devices 4 are arranged pivotably about individual pins 5. The bending devices 4 and latches 14 provide a blocking arrangement such that the upper part is blocked from being moved in a downward direction. Releasing legs 7' disengage the blocking arrangement by interacting with releasing devices 8 on the bending devices. Note that since the releasing legs 7' move with the stapling unit, they are deemed to be on the unit. The bending devices have a first contact point in contact with second contact points on the lower part and each of the points is located below the

pivoting center as shown in the figures. Elastic element 16 (the lower part) urges the bending devices in their initial position. The latches 14 also prevent the bending devices from pivoting in a direction opposite to the bending direction.

Regarding the amendment to claim 1, the bending devices 4 are contacting the lower part (spring 16) on a surface which is considered to be rigid. Note that the lower part surfaces where the bending devices are specifically contacting do not bend and remain stiff. It is noted that the lower part bends in the upper corners of the spring (shown in Fig. 8). In addition, as seen in the figures, lower part 16 is spaced from the upper part, such that the spring legs have room to move relative to the upper part during operation.

#### ***Response to Arguments***

4. Applicant's arguments filed October 23<sup>rd</sup>, 2008 have been fully considered and are believed to have been addressed in the above rejection.

#### ***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LINDSAY M. LOW whose telephone number is (571)272-1196. The examiner can normally be reached on Monday thru Friday 7:30 to 5:00.
